<b>Estimated Cost</b>			<b>\$</b>

These are only costs to install the options listed above. Additional costs apply to purchase these items. **Basic Installation Cost DOES include:** Building the dome structure with door, ventilation mechanisms, standard solar electric devices, north wall insulation, metal flashing for lining the foundation wall, anchoring devices, glazing and trim and installation of the water tank.

**Basic Installation Cost DOES NOT include:** the options listed above, site leveling, plumbing, 110 volt electricity, interior growing beds, placement of the under-soil heating pipes or the under-soil blue board skirt. Installation of these items can be undertaken by Growing Spaces Certified Installers, or the Purchaser (or his/her agents) as mutually agreed upon by both parties. If custom designed items are requested by the owner, the installation of these items will be billed at our standard rate of \$25 an hour per person for the time involved.
