

Growing Spaces

Where life thrives.

Global Children's Gardens Introducing:

The Growing Dome®

Local food production in the Rocky Mountains,
Is now possible all year round in this innovative structure.

Tested for over 20 years in the Colorado Rockies, this is
**Colorado's Own,
Energy Efficient,
Year Round Greenhouse.**

These remarkable greenhouses support year
round harvest of fresh produce and help people transition
to sustainable, healthy lives.

Come to our free presentation:

Learn how you can grow organic vegetables
year round for your family, school or community
with sustainable practices and
renewable energy sources

Discussion to follow presentation

Growing Spaces, LLC is a Colorado company that produces
the Growing Dome®, an innovative geodesic greenhouse
that creates a mini-eco-system through harnessing the
forces of nature. Register Now online and Receive a Spe-
cial Offer on a Growing Dome®!
